

MY BOOKS

I write and publish a new book every year because I believe that sharing new ideas and thinking about our shifting world empowers each of us to find a unique way to create a better collective reality. Find all of my books on Amazon and Audible - but they are best experienced as Future Self Academy courses.

01. WHAT'S YOUR MOONSHOT?

+ What mindset do you need to thrive in today's rapidly-changing world?

What's Your Moonshot? prepares you for a personal and business future where you are financially and intellectually sustainable – what I call Forever Profitable.

The first step is to get your internal strategy right by confronting a profound question: are you seeing yourself as a victim of the future, or an architect of it? Once you understand your perspective, we decipher which business strategies, trends and innovations are relevant to you and your business in this era of disruption, so you can develop and implement your own 'Moonshot' idea.

04. FUTURENEXT

+ The future has arrived early.

And it is challenging each of us to ask, and answer, the defining questions of our time:
How will our post-pandemic society move forward? Will we ever return to the world we once knew?
Are we witnessing the development of a new socioeconomic system?

Shaped by the dynamic thinking of futures-strategist John Sanei and profound economic principles of Dr Iraj Abedian, FutureNext equips readers with the mindset and tool needed to forge a new way forward – a way of confidence and peace of mind.

The book explores our evolving responsibilities as consumers, employees, employers, entrepreneurs and executives tasked with re-imagining our world. In so doing, it provides a path to create prosperous societies that are more harmonious, systematical fair and sustainable than anything we've known before.
